ABOUT ME

Hi! I'm Saidazamxon — a self-taught developer passionate about creating modern websites. I mainly build responsive and minimalistic websites using HTML, CSS, JavaScript, and React. I enjoy turning complex problems into simple and clear solutions. My goal is always to create user-friendly, beautiful, and functional web projects that work perfectly across all devices.

WORK EXPERIENCE

Self-Taught Front-End Developer 2024 – 2025

- Designed and developed multiple responsive websites using HTML, CSS, JavaScript, and React.
- Focused on minimalistic UI and smooth UX across all devices.
- Completed several personal and demo projects to practice layout design, animations, and interactivity.
- Continuously learning and applying modern web development best practices.

2020 – 2021
